

eGL lecturers with public service background, and veterans who understand the implementation challenges when they teach conceptual frameworks. Putting theory together with industry knowledge – that’s what I like about the whole experience.

Mr Mohamed Shareef
CIO, National Centre for Information Technology, Maldives

Singapore e-Government Leadership Centre

Inspiring leaders to transition through digital government education

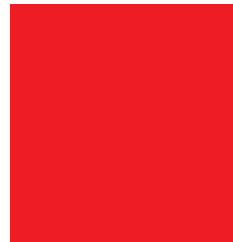

To date, we have engaged over 3,400 Government Officers from 133 countries around the world, from South Asia to Greater China, ASEAN countries, Africa and The Cooperation Council of the Arab States of the Gulf (GCC).

The programme is a combination of theoretical lectures and practical transformation. The lesson I learnt here will be applicable in my workplace to bring about a transformation.

Mr. Mohammad Nurul Karim Majumder
Deputy Secretary
ICT Division, Bangladesh

The site visits were real-time showcase which inspired me. Besides theoretical knowledge, I learnt how dedicated staff can overcome all challenges and accomplish the aspirations.

Mrs. Lungten Zangmo
Deputy Chief Information Communication Technology Officer
Cabinet Secretariat, Bhutan

MISSION

Innovate and transform through digital government education and consulting

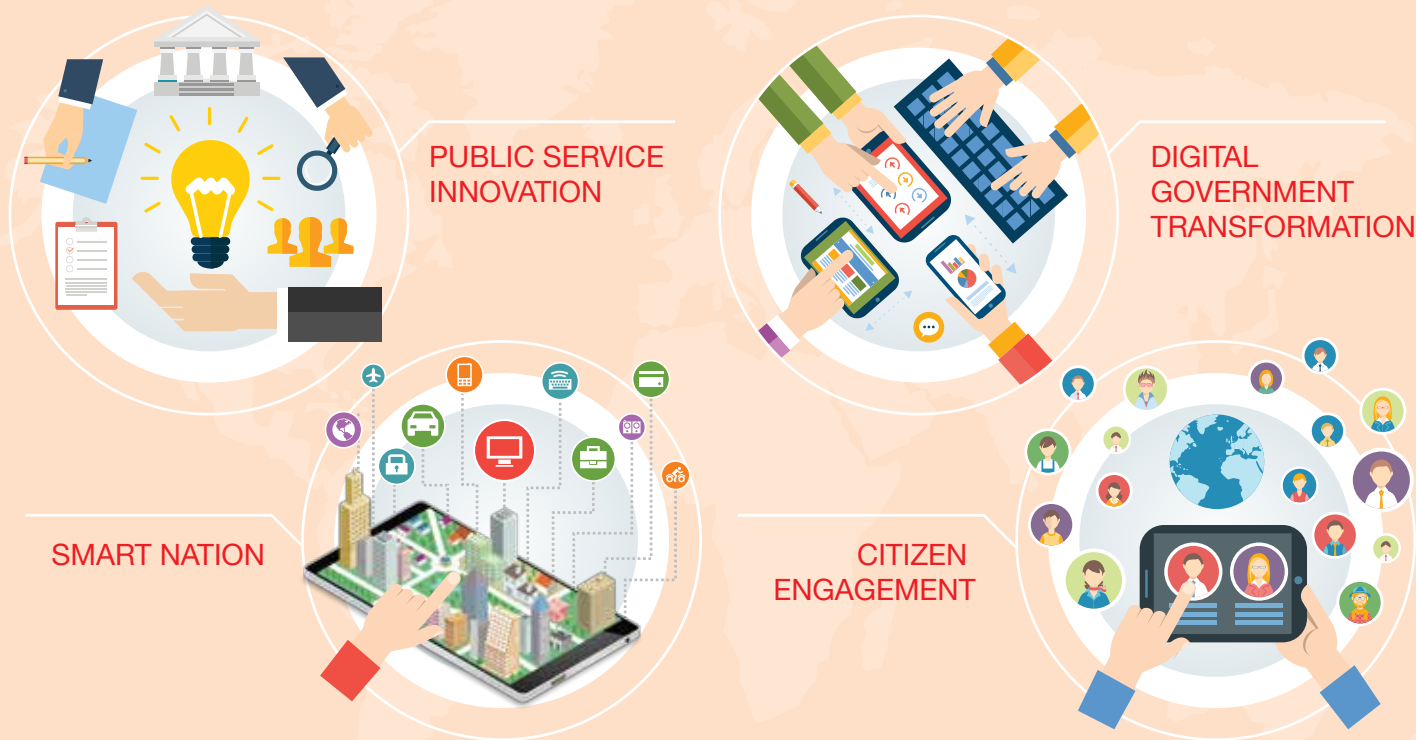

VISION

A world-class leader in digital government education, consulting and research

INSPIRE, LEAD, TRANSFORM

We believe that the leaders must align their e-Government initiatives to the national and organisational vision, and inspire all the key stakeholders to embrace the change and adapt. Our carefully designed lectures, site visits and workshops provide the frameworks and best practices that equip leaders to challenge status quo and undertake whole-of-government digital transformation.
